Dear Sir/Madam,  
(Please find the attachment)  
in  
Jakarta

Subject:  
Regulation of Minister of Agriculture Number 04 of 2015

I am writing a letter to you as follow up of our technical consultation which was conducted on April 2<sup>nd</sup>, 2015. I am pleased to remind you some significant information regarding import requirements for fresh food of plant origin (FFPO) to Indonesia as follows:

1. Regulation of Minister of Agriculture Number 04 of 2015 regarding Food Safety Control for Importation and Exportation of FFPO will be fully implemented and supersedes the Regulation of Minister of Agriculture Number 88 of 2011 on 17 February 2016;
2. Starting from the date of enactment (17 February 2016), the exporting countries that have not been granted for recognition of its food safety control system or registration of its food safety testing laboratory will not be permitted to export their FFPO to Indonesia;
3. Therefore, in order to avoid any disturbance on food trade, I kindly request the exporting countries to promptly submit their application for recognition of its food safety control system or registration of food safety testing laboratory
4. The complete procedure for recognition of origins country's food safety control system is described on Annex II Regulation of Minister of Agriculture Number 04 of 2015. The recognition's application shall be submitted using the Application Form: Format-5 in Annex V (enclosed).
5. The complete procedure for registration of food safety testing laboratory in origin country is described on Annex III Regulation of Minister of Agriculture Number 04 of 2015. The registration's application shall be submitted using the Application Form: Format-3 in Annex V (enclosed).

Hopefully, this information will strengthen our cooperation on agricultural trade especially on food safety. Thank you for your kind attention and cooperation. For further information, please do not hesitate to contact us.

Yours sincerely,

Bambang Harjini  
Director General of Indonesian Agricultural Quarantine Agency (IAQA),  
Ministry of Agriculture - Republic of Indonesia

Cc:  
H.E. Minister of Agriculture, The Republic of Indonesia

Appendix II

Formal - S

**APPLICATION FOR RECOGNITION OF FPPG IN A COUNTRY**

To:

H.E. Minister of Agriculture of the Republic of Indonesia  
 c.q. Director General of Indonesian Agricultural Quarantine Agency  
 (Food Safety Competent Authority at the Entry and Exit Points of Indonesia)

From:

National Food Safety Competent Authority (NFSCA) of: ... (name of country)

Herewith we would like to inform the details of the food safety control systems that we apply for recognition:

1.	Name and description of Produce (Common Name & Botanical Name)	Name of commodity, e.g. apple ( <i>Pyrus malus</i> ), grapes ( <i>Vitis vinifera</i> ), etc.	
2.	Detail of Production Area	<ul style="list-style-type: none"> <li>- Total Production Area: ... (in acres) for each commodity</li> <li>- Productivity of each commodity per acre per season</li> <li>- Location of production sites (district, provinces, etc.)</li> <li>- List of production area of product exported to Indonesia</li> </ul>	
3.	Certification Bodies of Produce		
4.	Testing Laboratories and Their Competence		
5.	Authorized Residue Survey Institution(s)		
6.	Food safety control systems <sup>a)</sup>		
	a. GAP	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	b. GHP	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
	c. Procedure of Monitoring and Surveillance (including sampling methods, scope, frequency, lab test method(s))	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	d. Data of Monitoring and Surveillance (at least 3 years)		
	- pesticide residues	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	- mycotoxins	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	- heavy metals (Pb, Cd)	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	- microbiological contamination	<input type="checkbox"/> Yes	<input type="checkbox"/> No

c. Procedure of Inspection and Certification (including sampling methods)	<input type="checkbox"/> Yes	<input type="checkbox"/> No
7. Annex <sup>**</sup>	<ul style="list-style-type: none"> <li>a. Description of food safety control system for fresh food of plant origin in country of origin;</li> <li>b. List of Food Safety Regulations (Full Text in English);</li> <li>c. List of Production Sites implementing GAP;</li> <li>d. List of Handling Facilities implementing GHP;</li> <li>e. List of Manufacturing Facilities implementing GMP;</li> <li>f. Monitoring system for chemical and biological contaminants (including sampling methods, scope, frequency, lab test methods);</li> <li>g. Official monitoring's result at least the latest of 3 (three) years;</li> <li>h. List of Testing Laboratories;</li> <li>i. List of Producers/Exporters;</li> <li>j. Description of Authorized Agency (Food Safety Competent Authority, Regulatory Bodies, National Residue Survey, Certification Bodies of Produce etc.);</li> <li>k. Inspection and certification system for exportation of PPPO;</li> <li>l. Inspection and certification system for importation of PPPO;</li> <li>m. List of Exit Points.</li> </ul>

Appendix III

**APPLICATION FOR REGISTRATION OF  
FOOD SAFETY TESTING LABORATORY IN A COUNTRY**

To:

U.P. Minister of Agriculture Republic of Indonesia  
c.q. Director General of Indonesian Agricultural Quarantine Agency  
(Food Safety Competent Authority at the Entry and Exit Points of Indonesia)

From:

National Food Safety Competent Authority (NFSCA) of ... (name of country)

Herewith we would like to inform:

1. The details of food safety testing laboratory submitted to be registered:

No.	Name of Laboratory	Address	Scope of Accreditation
1			
2			
3			

2. List of pesticide active ingredients used and licensed in origin country:

No.	Pesticide Active Ingredients	Agricultural Products
1		
2		
3		

3. List of active ingredients of banned pesticides (including Persistent Organic Pollutants/POPs):

No.	Pesticide Active Ingredients	Year (banned)
1		
2		
3		

4. List of regulations regarding pesticides or other agricultural chemicals (if available):

5. List of Annexes (Please provide all documents in English):

- a. Profile of NFSCA (Name of agency, address, organizational chart, contact person, function and responsibilities);
- b. Profile of competent agency for food safety laboratory accreditation (Name of agency, address, organizational chart, contact person, function and responsibilities);
- c. Profile of each laboratory (Name of laboratory, address, organizational chart, contact person, scope of analysis, certificate of accreditation, method of analysis, testing records (at least 2 years), a list of major testing/analysis equipments (including the specification of testing equipments), lay out of office and laboratory, laboratory personnel including the training period of the laboratory personnels, a copy of documents demonstrating evaluation of laboratory performance);
- d. Name and specimen of signature of authorized officer responsible to endorse the certificate of analysis; and
- e. Mechanism of accreditation;
- f. Official control of food safety laboratory by NFSCA.

**Approved By:**

Ali Abdi

**Prepared By:**

Thom Wright

**Report Highlights:**

Ministry of Agriculture regulation 4/2015 provides alternate methods for exporters to establish FFPO recognition. Countries may apply for FFPO food safety recognition, as established in prior regulations. Countries which do not acquire FFPO safety recognition, however, may now apply for recognition of individual labs.

**General Information:**

The Indonesian Ministry of Agriculture (MOA) issued a new regulation pertaining to the import and export of fresh food of plant origin (FFPO) on February 10, 2015. The regulation has been notified to WTO/SPS Committee and received extensive comments from trading partners including the United States. Ministry of Agriculture Regulation 4/2015 replaces MOA 88/2011 and became effective February 17, 2016.

MOA 4/2015 provides alternate methods for exporters to establish FFPO recognition. Like the old regulation, countries may continue to apply for FFPO food safety recognition. MOA 4/2015, however, also permits countries to apply for recognition of FFPO testing laboratories. Shipments from all countries, regardless of laboratory or country recognition, must provide "prior notice" of shipment prior to the FFPO being loaded onto the transit vessel. Countries with recognized laboratories must also provide a certificate of analysis (COA). A COA is not required from countries with country recognition.

According to MOA 4/2015, the following must be submitted as part of the country equivalence request package:

- The exporting country's food safety regulations and policies (in English),
- A description of proposed FFPO for export to Indonesia,
- A list of production sites implementing GAP,
- A list of handling facilities implementing GHP,
- A list of processing facilities implementing GMP,
- A resume of the exporting country's food safety control system (as it is established and implemented),
- At least three years of food safety monitoring data,
- A list of FFPO safety testing laboratories,
- A list of authorized bodies/agencies for food safety, including the food safety competent authority, the legislative body stipulating food safety regulations, and the food safety monitoring/survey/certification body,
- A list of producers/exporters,
- A description of the inspection and certification system for exportation of FFPO,
- A description of the inspection and certification system for importation of FFPO, and
- A list of exit points.

Countries which do not acquire FFPO safety recognition may apply for recognition of individual labs. Lab recognition requests must:

- Be submitted on behalf of a laboratory accredited by the country's competent authority, and
- Be made on behalf of a facility competent to analyze the type of FFPO that will be exported to Indonesia in accordance with the type of pesticide/ heavy metals/mycotoxins/microbiological contaminants relevant to the exporting country.

Laboratory recognition requests must include:

- A written application made by the exporting country's national food safety competent authority (NFSCA),
- The profile of NFSCA, including the name of body/agency; address; contact person; the structure of agency, task/function, and authority of the organization,
- The profile of competent authority authorized for accreditation the food safety testing laboratory including the name of body/agency; address; contact person; the structure/ task/function, and authority of the organization,
- The profile of the testing laboratory(s) including name; address; organization structure; contact person; scope of testing; testing methods; records of testing results for the last 2 years (minimum); list of main analysis equipment (including equipment specifications); office and laboratory layout; laboratory personnel (including training period for laboratory analysts); copy of laboratory performance evaluation results,
- List of pesticide active ingredients used and licensed in origin country, as well as those which are not used or are prohibited (including Persistent Organic Pollutants/POPs),
- List of regulations regarding pesticides and other agricultural chemicals (if available),
- Name of officer authorized to endorsed Certificate of Analysis, as well as a Sample signature,
- Explanation of the NFSCA's oversight mechanism of the food safety testing laboratory.

Country and laboratory FFPO recognition will be valid for three years and may be extended. Extension applications must be submitted at least six months prior to the end of the current recognition period. Three noncompliance findings will result in suspension of FFPO recognition. A country sanctioned with FFPO suspension will not be permitted to export FFPO during the suspension period.

FFPO country recognitions existing prior to the new regulation remain valid without additional evaluation. Renewal requests submitted prior to the new regulation will be evaluated as per the terms on which they were submitted.

MOA 4/2015 specifies 103 types of FFPO regulated by MOA 4/2015:

**Fruits:** Grapes, Avocado, Apple, Apricot, Berries, Blackberry, Blueberry, Figs, Boysenberry, Cantaloupe, Cherries, Cranberry, Citrus Fruit, Currant, Dewberry, Durian, Gooseberry, Grapefruit, Oranges, Longan, Raisins, Kiwifruit, Dates, Lychee, Lemon, Lime, Mandarin, Mango, Melon, Cantaloupe, Pineapple, Nectarine, Papaya, Peach, Persimmon, Banana, Pear, Plum, Shaddock/pomelos, Prunes, Raspberries, Squash, Custard Apple, Strawberry;

Laboratory recognition requests must include:

- A written application made by the exporting country's national food safety competent authority (NFSCA),
- The profile of NFSCA, including the name of body/agency; address; contact person; the structure of agency, task/function, and authority of the organization,
- The profile of competent authority authorized for accreditation the food safety testing laboratory including the name of body/agency; address; contact person; the structure/ task/function, and authority of the organization,
- The profile of the testing laboratory(s) including name; address; organization structure; contact person; scope of testing; testing methods; records of testing results for the last 2 years (minimum); list of main analysis equipment (including equipment specifications); office and laboratory layout; laboratory personnel (including training period for laboratory analysts); copy of laboratory performance evaluation results,
- List of pesticide active ingredients used and licensed in origin country, as well as those which are not used or are prohibited (including Persistent Organic Pollutants/POPs),
- List of regulations regarding pesticides and other agricultural chemicals (if available),
- Name of officer authorized to endorsed Certificate of Analysis, as well as a Sample signature,
- Explanation of the NFSCA's oversight mechanism of the food safety testing laboratory.

Country and laboratory FFPO recognition will be valid for three years and may be extended. Extension applications must be submitted at least six months prior to the end of the current recognition period. Three noncompliance findings will result in suspension of FFPO recognition. A country sanctioned with FFPO suspension will not be permitted to export FFPO during the suspension period.

FFPO country recognitions existing prior to the new regulation remain valid without additional evaluation. Renewal requests submitted prior to the new regulation will be evaluated as per the terms on which they were submitted.

MOA 4/2015 specifies 103 types of FFPO regulated by MOA 4/2015:

**Fruits:** Grapes, Avocado, Apple, Apricot, Berries, Blackberry, Blueberry, Figs, Boysenberry, Cantaloupe, Cherries, Cranberry, Citrus Fruit, Currant, Dewberry, Durian, Gooseberry, Grapefruit, Oranges, Longan, Raisins, Kiwifruit, Dates, Lychee, Lemon, Lime, Mandarin, Mango, Melon, Cantaloupe, Pineapple, Nectarine, Papaya, Peach, Persimmon, Banana, Pear, Plum, Shaddock/pomelos, Prunes, Raspberries, Squash, Custard Apple, Strawberry;

**Vegetables:** Artichokes, Asparagus, Onion, Garlic, Shallot, Spinach, Beetroot, Sugar beet, Broccoli, Cauliflower, Peppers Chili, Chicory, Leeks, Flowerhead brassicas, Gherkin, Sweet corn, Mushroom, Potatoes, Kale, Kohlrabi, Cabbage, Brussels sprout, Chinese cabbage, Lima bean, Radish, Turnips, Cucumber, Paprika, Parsley, Okra, Lettuce, Celery, Tomato, Eggplant, Sweet potatoes, Carrot;

**Grains:** Barley, Rice, Wheat, Maize, Oats, Rye, Sorghum;

**Nuts:** Almond, Hazelnuts, Macadamia nut, Pistachio Nuts, Peanut, Pecan;

**Pulses:** Soybean, Mung bean, Broad bean, Cowpea, Peas;

**Estate Crops:** Cacao beans, Coffee beans, Pepper, Sugar cane, Tea, Olives.
